Class : T1A

## 1. Screenshot Terminal Praktik5.ts:

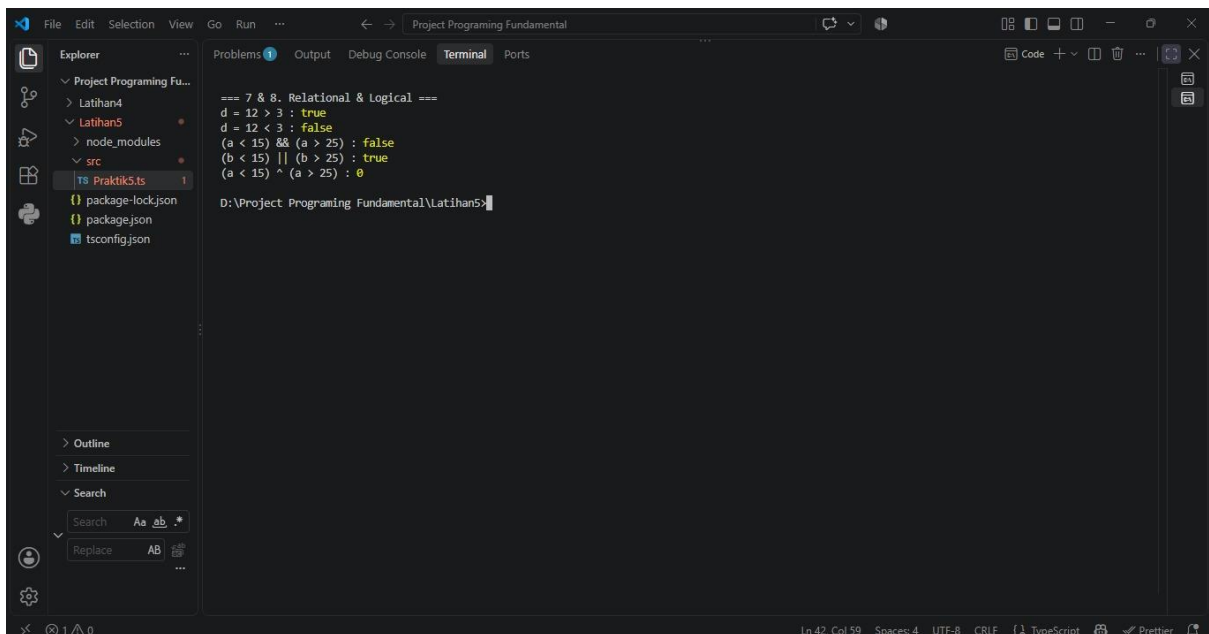

### A. 3

```
Need to install the following packages:
ts@4.23.15
Ok to proceed? (y) y
Nilai variabel awal adalah :
a=20, b=30, c=3, d=5

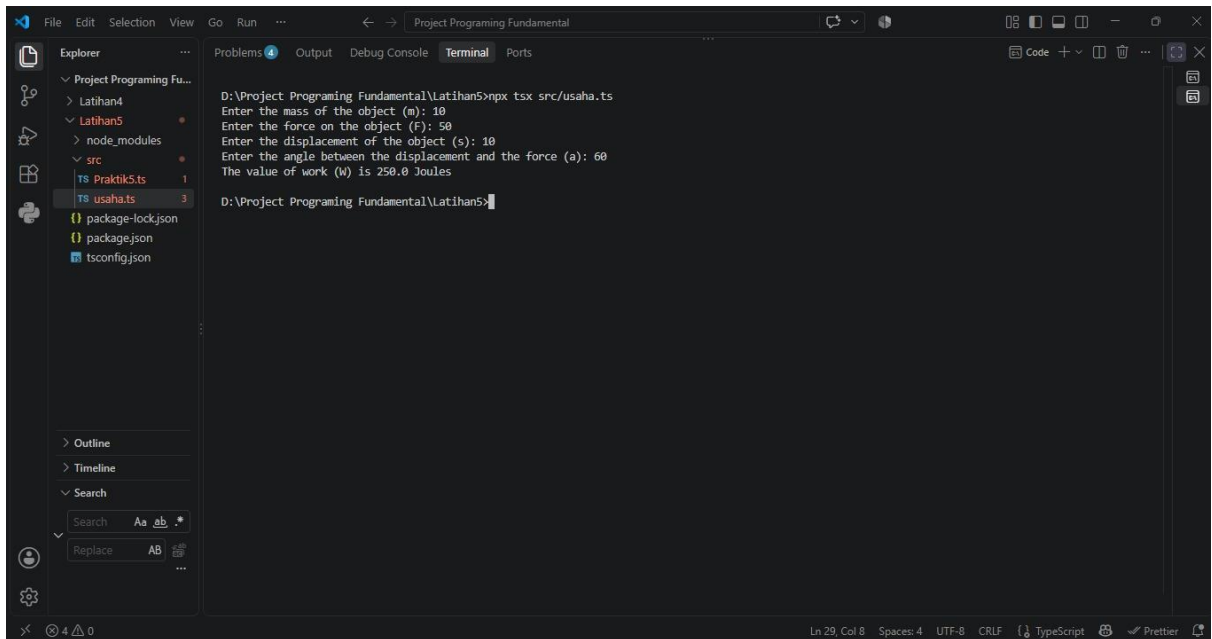

d=003
D:\Project Programing Fundamental\Latihan5>
```

### A. 4

```
=== 7 & 8. Relational & Logical ===
d = 12 > 3 : true
d = 12 < 3 : false
(a < 15) && (a > 25) : false
(b < 15) || (b > 25) : true
(a < 15) ^ (a > 25) : 0
D:\Project Programing Fundamental\Latihan5>
```

## 2. Screenshot Terminal Usaha.ts:

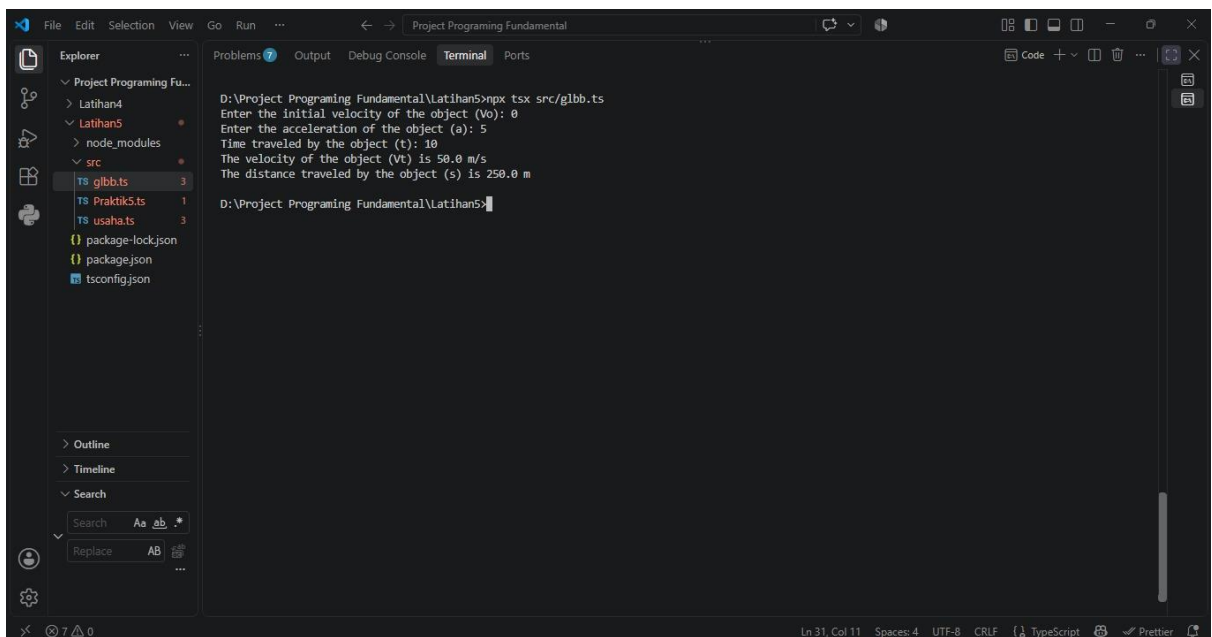

```
File Edit Selection View Go Run ... Project Programing Fundamental
Explorer Problems Output Debug Console Terminal Ports
  > Project Programing Fundamental
    > Latihan4
    > Latihan5
    > node_modules
    > src
      ts Praktiks.ts 1
      ts usaha.ts 3
    package-lock.json
    package.json
    tsconfig.json

  > Outline
  > Timeline
  Search
    Search As ab *
    Replace AB

Ln 29, Col 8 Spaces: 4 UTF-8 CRLF TypeScript Prettier
```

D:\Project Programing Fundamental\Latihan5>tsx src/usaha.ts  
Enter the mass of the object (m): 10  
Enter the force on the object (F): 50  
Enter the displacement of the object (s): 10  
Enter the angle between the displacement and the force (a): 60  
The value of work (W) is 250.0 Joules  
D:\Project Programing Fundamental\Latihan5>

## 3. Screenshot Terminal glbb.ts:

```
File Edit Selection View Go Run ... Project Programing Fundamental
Explorer Problems Output Debug Console Terminal Ports
  > Project Programing Fundamental
    > Latihan4
    > Latihan5
    > node_modules
    > src
      ts glbb.ts 3
      ts Praktiks.ts 1
      ts usaha.ts 3
    package-lock.json
    package.json
    tsconfig.json

  > Outline
  > Timeline
  Search
    Search As ab *
    Replace AB

Ln 31, Col 11 Spaces: 4 UTF-8 CRLF TypeScript Prettier
```

D:\Project Programing Fundamental\Latihan5>tsx src/glbb.ts  
Enter the initial velocity of the object (Vo): 0  
Enter the acceleration of the object (a): 5  
Time traveled by the object (t): 10  
The velocity of the object (Vt) is 50.0 m/s  
The distance traveled by the object (s) is 250.0 m
